May 1966

APRIL UNIFORM PRICE \$4.54

Dairy farmers who delivered Grade "A" milk to handlers subject to the Fort Wayne milk order in April 1966, will receive a minimum uniform price of \$4.54 per hundred-weight for milk testing 3.5%, subject to a butterfat differential of 7.5 cents. The minimum price is subject to a 4 cents per hundredweight marketing service deduction, authorized hauling charges, and location differentials.

The \$4.54 price for April 1966 is 8 cents above the March 1966 price, and 78 cents above the April 1965 price. The increase over last April was due in part to the suspension of the "Louisville Plan" set-aside for April 1966.

PRODUCER RECEIPTS AND UTILIZATION

Approved producers shipped 23,664,717 pounds of milk to the Fort Wayne market during April 1966 of which 17,657,213 pounds or 75% was utilized in Class I by 16 pool handlers. Production was down 1.3%, and Class I utilization of producer milk was down 1.8% from March 1966.

CLASS I PRICE FOR MAY \$4.90

In accordance with an amendment to the Fort Wayne Federal Order, effective April 10, 1966, Class I prices for May and June will not be less than the April 1966 price of \$4.90. Computation of the May price under the unamended provisions of the Order resulted in a lower Class I price.

LIST OF HANDLERS

Names and addresses of handlers subject to the provisions of the Fort Wayne milk Order are shown on page 6 of this issue.
